## **With Restylane Lipp™ you can have the lips you've always desired**

Restylane Lipp™ is a safe and natural way to have the lips you've always wanted. And while Restylane Lipp gives your lips a sensational new look, your sensational new lips will give you a special kind of confidence.

Best of all, Restylane Lipp is long lasting but not permanent. So you always remain in control of the way you look.

You can also wear lustrous lip-gloss and lipstick to accentuate your new lips, or you can simply let their natural beauty shine through.

Either way, with Restylane Lipp, you'll look good and feel great with lips you absolutely love.

## **A lip enhancement treatment you can trust**

Like all Restylane® products, Restylane Lipp is derived entirely from a non-animal source. With a proven track record since 1996 of more than 9 million treatments worldwide, Restylane is the most tried and tested lip enhancement treatment in its class.

## **Restylane Lipp™ enhances lips naturally**

Restylane Lipp is a pure form of hyaluronic acid (HA): a naturally occurring substance that binds water to give lips their shape and fullness. As we age, however, our natural HA loses its efficiency at binding water.

When injected into the lips, Restylane Lipp simply boosts the skin's hydration system to lift and smooth away fine lines, creating a natural fullness that's soft to touch.

## ***"I've had lip enhancement before – what's different about Restylane Lipp™?"***

Restylane Lipp has been specially designed for lip enhancement. With its outstanding performance, proven safety and long-lasting treatment results, Restylane Lipp is the obvious choice for beautiful lips – lips that look naturally full but never 'done'.

For the lips you've always desired, always ask for Restylane Lipp by name.
